

**LEVEL TWO UNIFIED PERMIT –
CHECKLIST FOR DETERMINATION OF COMPLETENESS
[Devens Enterprise Commission Rules and Regulations 2021]**

Name of applicant and project: 35 Saratoga Blvd.

Date of Issuance of this DOC: April 12, 2021

List Regulatory Components of this Unified Permit: Site Plan

Signature of LUA or Authorized Agent:

A handwritten signature in black ink, appearing to read "Peter Smith", is written over a light gray rectangular background.

1. Submission Requirements

- (a) A completed Permit application form.
- (b) The required Administrative, Processing, and Peer Review Fee.
1% of Unified Permitting Fee required for processing fee due by 4/20/22.
- (c) One (1) original and three (3) copies of the application, supporting plans and materials and one (1) digital (PDF) copy of the full submission.
- (d) A List of Abutters, certified if abutters are not located in Devens and a sketch plan showing the proximity of the abutters to the site.
- (e) Drainage calculations prepared by an Engineer complying with 974 CMR 3.04(4).
To be submitted by 4/20/22.
- (f) Request for Determination of Applicability (RFD) or a Notice of Intent (NOI) shall be submitted in accordance with Article XII of the By-Laws and 974 CMR 4.06 .
N/A
- (g) Copies of all existing easements, covenants, restrictions and Institutional Controls applying to the lot.
- (h) Soil suitability tests and analysis.
To be submitted by 4/20/22.
- (i) A list of Waivers requested by the applicant, identified as Waivers of Submission and Plan Form and Contents requirements or Design Standards, with the applicable section of the Regulations clearly identified or a statement that no waivers are being requested.
None requested.
- (j) Copy of any variance applying to the land, granted or filed concurrently with the Site Plan.
N/A

- (k) A narrative demonstrating compliance with the Reuse Plan and By-Laws meeting the specifications of 974 CMR 1.02.
Narrative provided does not address all components of 974 CMR 1.02. Provide updated narrative by 4/20/22. Include info on proposed tenant & anticipated uses.
- (l) If proposed by the applicant, a plan for the phasing of the construction of the required improvements, including a description, schedule, and plan showing the location of each phase.
NA.
- (m) A written statement of compliance with the Devens Open Space and Recreation Plan (DOSRP) and the Devens Main Post Trails report dated July 2001, to determine the effects, if any, of proposed development on resource areas, proposed trail rights-of-way, active and passive recreation areas, and other amenities included in the DOSRP.
- (n) If an applicant proposes parking lot construction phasing, a written statement demonstrating that the portion to be constructed is sufficient for the needs of the users of the proposed structure, comparing the number of spaces required by the By-Laws to the number the applicant believes are adequate, written certification that no building or permanent accessory structure will be placed on the area reserved for additional parking spaces, and a draft covenant that the parking will be built when the DEC determines it is required.
NA
- (o) An estimate of the number of vehicle trips daily and for the morning and evening peak periods (trip generation rates shall be based on the ITE "Trip Generation Manual" most recent edition, and if applicable, data about similar developments in Massachusetts) and a description of traffic mitigation measures proposed including traffic management plans, trip reduction methods, and car/vanpooling preferential parking, etc. Refer to the Devens Transportation Management Initiative Overview for full details and parking/trip reduction guidance.
Narrative only provides estimated truck volumes. Provide the estimated # of vehicle trips daily and for the morning and evening peak periods (trip generation rates shall be based on the ITE "Trip Generation Manual" most recent edition, and if applicable, data about similar developments in Massachusetts) and a description of traffic mitigation measures proposed including traffic management plans, trip reduction methods, and car/vanpooling preferential parking, etc. Refer to the Devens Transportation Management Initiative Overview for full details and parking/trip reduction guidance. Submit by 4/20/22.
- (p) An erosion and sedimentation plan.
Site will require significant blasting in order to achieve required grades. Include blasting procedures and details as part of erosion and sediment control plan and narrative. Erosion and Sediment Control plan needs to include the required notes as per 974 CMR 3.02(3)(e)1-5.
- (q) A landscaping maintenance and water management plan.
- (r) A narrative demonstrating compliance with the Industrial Performance Standards.

- (s) A copy of the LEED Green Building Rating System Project Checklist with the Location and Transportation, Sustainable Sites, and Water Efficiency Categories completed: <https://www.usgbc.org/resources/leed-v4-building-design-and-construction-checklist> .
- (t) Building elevations or perspectives of those portions of the building visible from public ways and residential and open space zoning districts showing the general appearance, massing, building materials, proposed colors, and relationship to abutting premises and, prior to the public hearing, the design review letter from Mass Development.
Building Elevations and details to be provided by 4/20/22. Design review letter from Mass Development required prior to Public hearing.
- (u) Building design review materials and if located within the Viewshed District, viewshed impact analysis.
Building design review materials to be provided by 4/20/22.
- (v) All Slope Resource Areas as identified in 974 CMR 3.06 Appendix B Figures (13) Figure M within the proposed plan area shall be shown on the site plan.
N/A
- (w) Climate change mitigation, adaptation and greenhouse gas emissions mitigation measures in accordance with the requirements of 974 CMR 4.11.
974 CMR 4.11 will require building to comply with MA Stretch Energy Code (more than 300 parking spaces)

2. Surveying and Drafting Plan Requirements

- (a) Site plans shall be 24"x36" and at a scale of 1"= 40' unless alternate size is approved by the Director. All Site Plans must also conform to the Registry of Deeds requirements for recording.
- (b) The names and addresses of the record owner of the land and the applicant and the name, seal, and address of the designer, Engineer, Surveyor, and Registered Landscape Architect who made the plan, all of which shall appear in the lower right-hand corner.
- (c) The name of the development, scale, date of plan, and legend.
- (d) A locus plan indicating the general location of the site in relation to all adjacent and nearby roads, railroads, and waterways.
- (e) Ties from the development site to the nearest town and county bounds if within 1000 feet of the site. Bearings and curve data/distances of all lot lines, names of all adjoining property owners as they appear in the most recent tax list, and the location of easements, rights-of-way, and public and private ways.
- (f) Devens Lot number of the site, if available.
- (g) Topography for the entire site in two-foot intervals with contours and principal elevations of significant existing and proposed features related to the National Geodetic Vertical Datum (NGVD) of 1929. Existing contours shall be shown as dashed lines and, along with all other existing features, shall be screened. Proposed contours are to be shown as solid lines.

- (h) A space for the DEC's endorsement of the Site Plan by a majority of the members of the DEC on the front sheet and space for the chairperson or designee to sign all other sheets .
- (i) Lines of existing abutting Streets and Roads showing drainage and driveway locations and curb cuts.
- (j) Surveyed property lines showing distances and monument locations, all existing and proposed Easements, Rights-of-Way, utilities and other encumbrances, the size of the entire parcel, and the delineation and number of square feet of the land area to be disturbed.

3. Administrative Plan Requirements

- (a) Zoning district(s) and any boundary of zoning districts within the site, along any existing or proposed lot line, or within 50 feet.
Correct the Water Resource Protection District Overlay Zone labels (Zone 2 WRP is east side of site and Watershed WRP is west.
- (b) The location, dimensions (including height), and general use of all existing and proposed buildings and structures to remain, including ground coverage, gross floor area, open area uses, and other facilities and improvements. Location of buildings existing on the site to be developed and on adjacent land under the same ownership within 500 feet of the lot line, indicating whether existing buildings are to be retained, modified or removed.
- (c) A statement noting the area of the site, the percentage of the site to be covered by impervious surfaces (such as buildings and parking areas), the area to be devoted to open space, the area to be paved for parking, driveways, loading spaces, and sidewalks, the number of proposed parking spaces and the number required by the By-Laws, the number of employees expected per shift, and the gross floor area of each proposed (commercial, industrial, office, or other) use. This data shall be tabulated to show the relationship of the required versus the proposed quantities.
Table included on Sheet C.2 but incomplete. Provide updated table with all required information (including total building and impervious area) with all existing/allowed and proposed numbers, by April 20, 2022.
- (d) Existing and proposed front, side, and rear setback dimensions.
- (e) Parking lots and loading docks, showing driveway entrances and exits designed for safe ingress and egress, curb cuts, layout of parking spaces, aisles, off-street loading facilities, pedestrian walks, bicycle racks or storage facilities, handicap ramps, and representative cross-sections of service and parking areas and driveways.
- (f) Existing and proposed landscape features such as fences, walls, planting areas, wooded areas, and walks. Scattered trees to be preserved shall also be shown as well as all "specimen trees" (trees exceeding a minimum caliper of twelve inches) within 100 feet of existing or proposed lot lines have been identified and indicated on the plan. All existing landscape features, especially existing trees and woodland to remain are shown on ALL site plan sheets. Planting details setback, screens, and other landscaped areas including quantities, species, and spacing of

plantings, shown at sufficient scale to illustrate clearly the landscaping design. Plans for walks, walls, and fences including dimensions, materials, and finishes. Landscaping Plans, Irrigation Design plans, Planting Plans, Planting Detail sheets, and Planting Specifications shall be prepared by a Landscape Architect registered in the Commonwealth of Massachusetts and shall bear the seal and signature of the Registered Landscape Architect who prepared them.

Provide required stamped landscaping plans by 4/20/22.

- (g) Planting Plans shall indicate the locations of proposed Street, Road and site lighting, even if site lighting is shown elsewhere on a separate plan and designed by separate consultant. Planting plans shall also include details and locations for walks, walls, and fences including dimensions, materials, and finishes.
Provide required stamped landscaping plans by 4/20/22.
- (h) Quantities, species, and spacing of plantings in lot setback areas, screens, parking and loading areas, and other landscaped areas shall be shown at a minimum scale of 1"=40'. Detail plans for areas such as landscape treatments adjacent to buildings, tree clusters or shrub beds, landscaped islands in parking areas, or other densely landscaped areas shall be shown at a scale of 1"=20'.
Provide required stamped landscaping plans by 4/20/22.
- (i) If an irrigation system is proposed, the Submission shall include an irrigation plan complying with 974 CMR 8.09(11) showing the complete layout and of all components, complete schematic diagrams of all systems, a functional and sequential description of all systems, and irrigation details for installation of all components, including but not limited to piping, valves, valve boxes, sprinkler heads, backflow preventers, automatic control systems, pumps, meters, associated cabinets, and all appurtenances as needed.
NA
- (j) Proposed means of fire equipment access.
- (k) Proposed traffic circulation systems, including the volume and proposed direction of traffic flows into, out of, and within the site for both vehicles and pedestrians for an average day and for peak hours.
Provide the estimated # of vehicle trips daily including the volume and proposed direction of traffic flows into, out of, and within the site for both vehicles and pedestrians for an average day and for peak hours.
- (l) Location and dimensions (including height) of all storage facilities for equipment, material, and other like items. Location of all underground and aboveground fuel, combustible, and flammable liquid storage tanks greater than 250 gallons.
- (m) Location and dimensions (including height) of facilities for garbage, rubbish, recycling, and other waste collection and disposal. Location and dimensions (including height) of facilities for garbage, rubbish, recycling, composting and other waste collection and disposal. **Note: Applicants should be aware of MA waste ban materials and plan for storage/reuse accordingly.** Info. on waste ban items can be found at <http://goo.gl/Qrea5>
Compactor areas shown. Please clarify that this includes waste AND recycling and that containers will be sealed to properly contain materials.
- (n) Garage and pedestrian entrances and exits.

- (o) Maximum size vehicle, including trailers, expected to use the site after construction, by length, width, height, and American Association of State Highway and Transportation Officials (AASHTO) designation.
- (p) Location and dimensions (including height) of existing and/or proposed free-standing signs and the manner of illumination. All proposed signs shall conform with Article XIII of the By-Laws and 974 CMR 6.00: Sign Control as most recently amended.
No business signage proposed at this time. Ensure all proposed site signage and striping details are shown on plans (Fire, ADA, parking, loading, stop bars, etc...)
- (q) Existing and proposed public and private utilities, above and below grade, along with their type, size, and class.
- (r) If the project is to be phased, a plan for the phasing of the construction of the required improvements, including a description, schedule, and plan of affected areas.
NA
- (s) Any additional details that may be pertinent or required by the Director during the scoping or Pre-Permitting sessions

4. Industrial Performance Standards Plan Requirements.

- (a) The site lighting information shall be provided on the Site Plan, including types of fixtures, heights, wattage, foot candle output directly under the light source, foot candle output at the lot line, and a photometric layout/diagram showing direction and intensity of outdoor lighting.
Lighting cut sheets provided in application submittal. Include on plans and highlight the actual fixture type being proposed. Please note, all lighting must be no greater than 3000K and must be dark, earth tone color. Alos provide fixture heights as well.
- (b) Notes shall be provided on the Site Plan stating:
 - (1) Existing or proposed use will not generate electromagnetic interference to any sensitive receptor. Interference with the Harvard-Smithsonian radio telescope (1400-1720 MHz) is specifically prohibited.
 - (2) Proposed or existing use will not cause pronounced, multiple patterns of noise or vibration nuisance to, or interfere with, any sensitive receptor.
 - (3) Either "A Massachusetts Department of Environmental Protection (DEP) air quality permit application has been made" or "A DEP air quality permit is not required."
- (c) Locations or uses deemed by the Director to be sensitive receptors in any given area of impact may be subject to field identification of the receptor and/or special documentation or field data that helps to clarify the existence or absence of subject impacts. This documentation and data includes existing secondary data and studies, limited field testing by the applicant, or in the worst case scenario, retention of additional professional consultants to conduct further testing. Specifications for any additional information will be identified by the Director during the pre-permitting conference and shall be incorporated in the Site Plan.
Residential lands & homes along Adams Circle are sensitive receptors.

- ☒ (d) A Copy of the completed Industrial Performance Standards Checklist shall be included: http://www.devensec.com/forms/Industrial_Performance_Standards_Checklist.pdf.

5. Wetlands/Water Resources/Flood Plain Plan Requirements.

- ☒ (a) All Resource Areas as defined by 974 CMR 4.06, including existing natural features (ponds, brooks, wetlands, etc.), Federal Emergency Management Agency (FEMA) flood plain elevations on and/or adjacent to the lot, Flood Insurance Rate Map (FIRM) panel number, zone designation, and base flood elevation.
- ☒ (b) Erosion, siltation, and dust control measures before and during construction, in accordance with 974 CMR 3.02(3)(e).
Include blasting procedures and details as part of erosion and sediment control plan and narrative. Erosion and Sediment Control plan needs to include the required notes as per 974 CMR 3.02(3)(e)1-5.
- ☒ (c) Location of all private wells on or within 200 feet of the boundaries of the property, if any.
None.
- ☒ (d) Location of all public and community water supply wells on or within 1,000 feet of the boundaries of the property, if any.
None.
- ☒ (e) Proposed conservation restrictions and easements.
None.
- ☒ (f) For any site plan that stores fuel, combustible and flammable liquids, as defined by 42 U.S.C. section 6901-6922i, G.L. c. 148, and 527 CMR 9.00, compliance with 974 CMR 4.09 and an addendum to the DSPCC and the location of on-site materials and equipment for spill response in accordance with its specific DSPCC are required.
None proposed.

6. Schedule:

Transmitted to Nitsch and other consultants	April 12, 2022
Pre-Permitting conference	March 7, 2022
Date of Determination of Completeness	April 12, 2022
Mail to Towns (30-day comment period begins)	April 15, 2022
Advertisements	April 29 & May 6, 2022
Notification of abutters	April 12, 2022
Public hearing	May 31, 2022
End of 30-day comment period	May 16, 2022
Tentative vote	June 9, 2022

7. Notes/Comments

- *Proposed scale of building and parking areas/retaining walls leaves little to no area for required landscape screening/buffers. Applicant may need to reduce the size of the building and/or parking areas and walls in order to ensure all landscape screening and planting requirements are met.*
- *Need to understand proposed heights of retaining walls. If over a certain height, may be considered structures and need to meet setback requirements.*
