October 8, 2020

ABOUT US

We're proud to be an industry leader in recycling and solid waste and it's our vision to be America's preferred partner.

We'll handle it from here.® That's our brand promise to let customers know they can count on us to provide an exceptional experience while protecting Our Blue Planet. Our employees are helping to ensure a cleaner, safer and healthier world where people and communities thrive for generations to come.

We serve millions of customers across the country and are focused on providing simple solutions for their recycling and waste needs.

COVID-19 RESPONSE

Republic Responds to the COVID-19 Pandemic

Distributed hundreds of thousands of masks and sanitation supplies to protect our employees

Transitioned more than 1,200 customer service employees to a work-from-home environment, in only three days, without missing a single customer call

$20M

Launched a $20 million economic stimulus to support our 28,000 frontline employees, customers and the communities we serve

$6M to local restaurants for employee meals and take-home family meals

$11M in gift cards for our frontline employees to support their local economies

$3M contribution to our charitable foundation to support the rebuilding of small businesses

Through our charitable foundation, Republic Services supported the delivery of nearly 800 care packages to healthcare workers and hospitalized children in Atlanta, Boston, Memphis, Phoenix, Seattle and St. Louis. It was our way of saying thank you to our healthcare workers, from one essential services provider to another and to bring some cheer to children facing illnesses during this unprecedented time.

Republic's Acquisition of Devens Recycling Center

- On January 31, 2020 Republic Services acquired the Devens Recycling Center
- Devens Recycling Center is a state-of-the-art Construction & Demolition Processing facility and rail served transfer station located in the Devens Regional Enterprise Zone
- Permitted to receive both C&D and MSW
- This facility is the largest C&D processing center in MA where recycling of C&D material is legislatively mandated. It serves as a processing and disposal location for the area in and around Devens, MA
- After material is processed it is sent outbound via a combination of truck and railcar. Given the DRC's proximity to the Ayer intermodal facility there is an opportunity to send a higher percentage of its outbound volume via rail
- Republic is in the process of installing a compactor to make that opportunity a reality while also evaluating the expansion of the onsite rail infrastructure
- **BENEFITS** of more outbound volume on rail:
  - Reduced truck traffic in the community
  - A reliable and sustainable disposal outlet
  - Faster movement of material through the facility
