Re: Design Group (DG Project #2103073)
Johnson Matthey, Devens, MA.
Control Area Variance Petition

To whom it my concern,

After hearing the Design Group's presentation regarding their concerns of the movement of chemicals and solvents through the Johnson Matthey Facility from one control room, I find the request to add additional satellite control areas at various locations to be a responsible approach to resolving their problem.

Having multiple satellite control areas will require a variance from the Board of Building Regulations and Standards (BBRS).

I am writing this letter in support of the BBRS granting this Variance request.

Respectively,

Gabriel J. Vellante Jr.
Building Commissioner
Devens, MA.
