RE: 24-PV-122, Tim Kilhart, 39 Sheridan Road, Devens/Harvard relief from 248 CMR 10.10(19) to allow the construction of a booster pump station without the required single-user bathroom.

Dear Board,

The Devens Enterprise Commission, acting as the local Board of Health and regulatory authority for development within the Devens Regional Enterprise Zone recently reviewed and approved the development of the proposed booster pump station and waterline connection from Devens to the Town of Harvard. The Commission and our Plumbing Inspector Jim Bakun have no objection to the above-referenced variance request by Tim Kilhart for the elimination of the need for a single-use bathroom in the proposed waterline booster pump station due to its size and the fact that the building will be unoccupied for the majority of time.

Should you have any questions or require further information, please feel free to reach out to me at 617.620.6095.

Sincerely,

Neil Angus, FAICP, LEED AP
Director/Land Use Administrator
