13th ISRS report

The 13th Industrial Symbiosis Research Symposium was held on June 17-18, 2016.

The 13th Annual ISRS Event in Devens, MA provided 25 practitioners/attendees with a great deal of information and informative discussions through a series of workshops, panel discussions and networking sessions with fellow eco-industrial park/project planners, managers and tenants on some of the key issues facing all eco-industrial projects and parks in the US and around the world.

[Links to the presentations given during the symposium can be found here.](#)

International Conference on Sustainable Industrial Areas:

Sustainable Industrial Areas - Be part of the Climate Solution

The GIZ Sustainable Industrial Areas Working Group (SIA WG), together with the Deputy Ministry in charge of the Environment under the Moroccan Minister of Energy, Mining, Water and Environment, would like to inform you that next year's edition of the International Conference on Sustainable Industrial Areas will take place in **Morocco on March 14-15th, 2017.**

The preparation for the International Conference has started. We will provide you with further information in the coming months and are very much looking forward to welcoming you in Morocco in next spring.
